

## Foundation case performed by Dr. Feriduni – 7319 FU in 5 procedures

FUE's performed on a 32-year old Caucasian female with a minimum of hair growth due to a burn accident as a child. In 5 phases, Dr. Feriduni achieved to recreate a decent hairline for the patient to attach a smaller, more comfortable and more natural hairpiece.

### Treatment plan

1. Follicular Unit Extraction to test the recipient area.
2. Follicular Unit Extraction to create the hairline.
3. Follicular Unit Extraction to change and lower the hairline.
4. Follicular Unit Extraction to complete the hairline.
5. Follicular Unit Extraction to expand the hairline.

### Performed procedures

1. Test FUE (April 29, 2013)  
Follicular Unit Extraction with 50 FU
2. FUE (May 12, 2014)  
Follicular Unit Extraction with 1987 FU (677 single FU + 1310 double and triple FU)
3. FUE (October 16, 2015)  
Follicular Unit Extraction with 1506 FU (200 single FU + 706 double FU + 800 triple FU)
4. FUE (March 20, 2018)  
Follicular Unit Extraction with 1820 FU (210 single FU + 1610 double and triple FU)
5. FUE (August 27, 2019)  
Follicular Unit Extraction with 1956 FU (300 single FU + 1656 double and triple FU)

Parallel and perpendicular incisions in custom-sized blades technique (Cutting Edge blades of 0,7-1,0 mm).  
Extraction performed by WAW-system with a 0.90 mm serrated trumpet punch.  
No microscopic preparation of the follicular unit grafts.

1<sup>st</sup> test FUE with 50 FU on April 29, 2013  
- Test the recipient area -

1 month postop after test FUE

1<sup>st</sup> FUE with 1987 FU on May 12, 2014  
- Create the hairline -

Preop 1<sup>st</sup> FUE

2<sup>nd</sup> FUE with 1506 FU on October 16, 2015  
- Change and lower the hairline -

Preop 2<sup>nd</sup> FUE

1 year postop 2<sup>nd</sup> FUE

3<sup>rd</sup> FUE with 1820 FU on March 20, 2018  
- Complete the hairline -

Preop 3<sup>rd</sup> FUE

1,5 year postop 3<sup>rd</sup> FUE / Preop 4<sup>th</sup> FUE

4<sup>th</sup> FUE with 1956 FU on August 27, 2019  
- Expand the hairline -

Comparison overview

Preop

Postop after 4 FUE's

“

My main goal was to recreate a decent hairline on which the patient can attach a small and more comfortable hair piece. After 6 years and 4 FUE's, we're proud to have achieved such a wonderful result. This is why I started my Foundation. We try to help 1 patient per month free of charges.

— Dr. Feriduni
